Erap: Guilty or not guilty. Kailangan bang may gulo?

WHATEVER the decision of the Sandiganbayan—Guilty or Not Guilty—all of us must respect it.

There will be some who may exploit it to sow discord and destabilize the country.

Stand firm against them.

The Court will soon promulgate its verdict—guilt or innocence. Our duty is to uphold the rule of law. This is the way of democracy.

Due process has been observed. Whether Estrada is freed or jailed, justice would have been served. Let the rule of law prevail.

We help each other during disasters. We unite during civil disorders. This is the spirit that should prevail for the sake of peace and harmony in the face of the challenge that confronts us now.

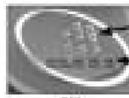

Let us put Erap's case behind us and move on.

Let the rule of law prevail

A Passion For Fashion and Function.

The **Nokia N76** is the computer done beautifully. This newest model in the Nokia Nseries features the latest in multimedia technology and modern design. It recognizes and meets the demands of the sophisticated, discerning and most of all, passionate mobile user. With its many advanced features and slim, sleek packaging, the **Nokia N76** fulfills the individual's strong desire for both style and substance in their lifestyle.

MEGA editor Vicky Urieta says, "I tend to be obsessive-compulsive with my work as I am very detail-oriented. Perfect execution, as well as excellent delivery, are always a must." Her dedication and passion makes her accept no compromise when it comes to the style or substance of the magazine. Difficult as it is, it's what drives her to do her job.

Not surprisingly, Vicky is as enthusiastic about the **Nokia N76** for its functions that are "just as impressive as its exterior." She says the new model in the Nseries embodies "strength, resilience and versatility."

Editor, Mega Magazine

"Right after food, clothing and shelter, should be your mobile phone," says Rafa Alunan. Though far from being just a necessity, Rafa likes the **Nokia N76** design innovations like the "flip" feature. "Never had a phone that flipped open and close before. Now that I have one, I see why it's always a hit!"

"Fold it when you don't need it and its size is cut in half," he demonstrates. "A gentle push makes the palm-size gizmo into a tall and sexy mobile device."

Master photographer Raymond Isaac knows that your skills as a craftsman enable you to take competent, good pictures. But to make your photographs a work of art requires something within the person taking the picture that can't be taught in schools. "It's difficult because you're dealing with so many variables - not just light or the equipment - you're dealing with people," he says. "If you don't have the passion, you can't do it."

"The **Nokia N76** works because it's absolutely what I require from my mobile," says Raymond. "It was designed for the professionals who do what they do because they have to. Not just because it's work." Without realizing it, Raymond just described himself.

MYX Magazine Managing Editor Gabbie dela Rama is a no-frills gal who prefers to go directly-to-the-point. "I love music," is her simple reply when asked about her job. That's the same way she answers about being the editor-in-chief of FULLY BOOKED's in-house magazine. "I love books as well," she says. "I love my job - it's the only prerequisite I've got to pour everything I have into doing something."

That approach is transferred to why she chose the **Nokia N76**. "The 26MB built-in memory can cope with my demands - especially, photos, radio and MP3 formats - a necessity when you're running a music magazine." But that's not all. "I can pretend it's a robot as well. I like robots."

Gabbie dela Rama
Editor-in-Chief, Fully Booked

Fashion designer/entrepreneur Kate Torralba describes herself as being "creative, multifaceted and expressive." Although you'd expect no different answer from someone in her field, Kate applies a certain daring that's hard not to find unique. "I'm not afraid to be different and love to inject a distinctive element in whatever I do," she says. "My style is always fun, feminine - always with a bit of quirk."

For Kate, it's her passion to set herself apart and be honest creatively, which influences her decisions - whether it's a pattern for a new dress or her technology. Describing having a mobile phone as "very essential", she says that the **Nokia N76** clips perfectly into her creative outlook and closed as it does into her handbags.

Kate Torralba
Creative Force

The **Nokia N76** is at the forefront of mobile technology and design innovation because of one reason - passion. The Nseries - especially its latest model, the **Nokia N76** - was produced with the same passion the individuals above apply to their own fields. The style and substance of their personalities make for a perfect combination.
